Ron,
Your summary of conversation is on the target- thanks!

George and Tom Michel will work with Dan and I to add the pond \$\$ to the estimate and I will send the revised spreadsheet to you via e-mail. When you have approved, I assume we will need to prepare the corp. Parent guarantee docs and get that to you. Please confirm that understanding. - I will need to coordinate that with corp HQ. Thanks.....Al

Alan:
Just to summarize our conversation:

1. NRC would like to come by the HMC - Grants site at around 4:30 pm, Monday Sept 17 for a "drive on the pile" style 45-60 minute tour, stops facing east, north, west, south, to see the site and the lay of the land. This is really for our Division Director, Larry Camper, so he can see the site prior to the Sept 18 meeting. Please confirm this is doable.
2. I'd like to request Dan or George to get the key from Cibola County prior to 5:00 on Sept 18 and make sure the room is set up for the meeting and PowerPoint slide presentation, if possible. I will tell Elena at Cibola County the set-up style and the County is supposed to complete the set-up. However, I'd like someone to double check prior to the meeting. We (NRC) will likely be in the field on an extended site tour most of the day. Please confirm this is doable.

The contact there is:
Meeting Information
Cibola County Government Bldg.
515 High Street
Grants, New Mexico 87020
Contact: Elena 505-285-2510 or 287-9431
"Elena Rodriguez" <ecrodriguez@zianet.com>

3. HMC will resubmit electronically the 2008 cost estimate with the pond #3 costs included.
4. The Pond #3 resolution is HMC priority (and will be my priority after the 9/18

meeting to get done). We discussed status of Acoma issue.

5. CAP revision is not a NRC/HMC priority and will be worked on after Pond #3 is resolved.

Please correct any inaccuracies.

Ron

Ron,
When I get a moment, I will look into this and respond. Still catching up from vacation - which is wicked!!
Thanks.....AI

AI:
I was looking over the surety estimate. I see that EP3 construction, with makes up about 3.5 million in costs, has been eliminated. In light of the fact that EP3 has not been approved at this time and construction has not commenced, should the EP3 Pond 3 construction costs remain in the new cost estimate on page 11 of 23, \$3,355,500, \$15,000, and \$229,500, or similar costs for next year? If so, please send me a revised estimate.
Ron
