**Subject:** "Comments on the draft EIS for the Vogtle Early Site Permit."

Do not expand the nuclear power plant! Please look into solar, wind, geothermal and 'hot rock' technology - among others. There are too many alternatives that can create jobs and foster an expansion of the alternative energy industry in Georgia! AND with water consumption/situation the way it is, how can an expansion of an energy plant that uses so much water be smart???

Jeremy Scheinbart
