

# Threat-Based Drill Workshop Security Involvement

**Jim Tucker**  
**Security Manager**  
**FPL Energy Seabrook Station**

# Threat-Based Drill Workshop

## Security Involvement

- **Security involvement is critical to the success of the drill.**
  - **Relationships with Local Law Enforcement Agencies (LLEA)**
  - **Logistics – Command Center / Staging / Communications**
  - **Interaction between Operations, Security, ERO and LLEA**
  - **Knowledge of procedures, indications and timelines**

# Relationships with Local Law Enforcement Agencies (LLEA)

- **Primary agency for LLEA**
- **Routine meetings with LLEA**
- **Familiarization training for LLEA**
- **Enhanced Tactical Operations Training**
- **Security relationships with Intelligence networks**

# Logistics

## Incident Command Post (ICP) / Staging / Communications

- ICP primary location and alternative locations.
- ICP staffing and equipment.
- Unified Command - Representation from Fire, EMS, Operations, JTTF and Emergency Management.
- Tactical Operations Center (TOC)
- Staging primary location and alternative locations.
- Communications capability and effectiveness.

# Interaction Between Operations, Security, ERO and LLEA

- **Joint Control Room Simulator scenario based training with Operations, Security, ERO and LLEA.**
- **LLEA involvement should include local agencies, SWAT and FBI.**
- **Realistic scenario based training between Operations and Security CAS/SAS.**
- **Open discussions between Operations, Security, ERO and LLEA on security events should be a part of this process.**

# Knowledge of Procedures, Indications and Timelines

- **Security, Operations, ERO and LLEA should all be knowledgeable on procedures and policies and their potential impact on each other.**
- **Indications of evolving exercise events should be address and explained by the appropriate representative from the discipline affected.**
- **Timelines should be realistic and worked out in advance with “Trusted Agents” from all discipline involved in the exercise.**
