RE: License #29-31231-01

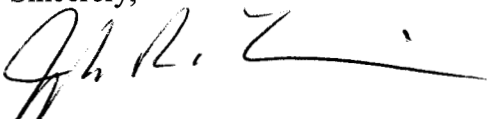

03032437

Dear Mr. McKinley:

Please find the enclosed information in response to your letter dated November 16, 2007.

1. You are correct in stating that the Hainesport address is in addition to the Bordentown address.
2. The request for materials in group 35.300 and 35.500 is restricted to the Hainesport address.
3. The facility will be using all available radioisotopes under group 35.300 including iodine-131.
 - a. The maximum amount on site would be less than 200 mCi.
 - b. All studies will be done on an outpatient basis
 - c. Addition lead bricks will be available in the hot lab to create a hot cave for storage of the doses.
4. An L-block will be available at the site located on the countertop in the hotlab
5. Dr. Browne is a D.O.

Sincerely,

Joseph Manni
