

June 28, 1994

Docket Nos 50-390
50-391

(10 CFR 2.206)

Joseph R. Gray, Deputy Director
Office Of Enforcement
United States Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Tennessee Valley Authority is continuing to take reprisal and discrimination actions; by holding me off the job, by denying me plant access, by with-holding my plant access security clearance.

See enclosed letter.

I have never carried a weapon with criminal intent. I only started carrying a weapon on a continuous basis; off TVA site since I had physical reprisal actions taken against me at Browns Ferry Nuclear Plant in 1988. With two attempts made on my life and a third attempt of sabotage of my truck on June 21, 1994.

Sincerely

George M. Gillilan

ADMINISTRATIVELY CONFIDENTIAL

Tennessee Valley Authority, 1101 Market Street, Chattanooga, Tennessee 37402

June 21, 1994

Mr. George M. Gillilan

A large black rectangular redaction mark covering the address of Mr. George M. Gillilan.

Dear Mr. Gillilan:

On March 25, 1994, Personnel Screening & Badging (PS&B) suspended your Nuclear Plant Access security clearance following your arrest at the headquarters of the Nuclear Regulatory Commission (NRC) in Bethesda, Maryland. The NRC is the Federal agency charged with responsibility to regulate the nation's nuclear power plants, and its offices are clearly marked with signs prohibiting weapons or firearms in the building. You were charged with two counts of carrying a concealed weapon.

PS&B investigated this event for two months and has determined that your security clearance should be revoked effective June 21, 1994. This determination has been made following my lengthy interviews with you and my review of the pertinent facts of this case. I have based my decision on your criminal conduct at the NRC headquarters, your continuing disregard for the law in the area of deadly weapons, and your failure to appreciate the severity and consequences of your actions.

Specifically, in our interviews, you admitted that you carried two concealed weapons into the NRC headquarters and that you pled guilty to one count of carrying a concealed weapon--a loaded pistol. Your explanation to me, that you carry a weapon to defend yourself from your enemies, was not reasonable in light of your admission that you had no known enemies at the NRC. Further, in our interviews, you acknowledged that you carry a loaded, concealed weapon (pistol) most of the time, and have done so for a lengthy period of time even though you know that doing so is a violation of state laws. Finally, you have not accepted full responsibility for the consequences of your actions and did not provide me with any assurance that this type of incident will not reoccur.

Mr. George M. Gillilan

These matters raise serious questions about your judgment and reflect adversely on your trustworthiness and dependability in working at a nuclear plant. TVA has a responsibility to its employees and the public to maintain a safe working environment and to assure that its nuclear plant workers meet high standards in these areas. Because you fail to meet these standards, I have decided that your security clearance should be revoked.

You may request a review of this decision to the Screening Review Board (SRB) and appear before the SRB at the next scheduled meeting. This will give you an opportunity to present any additional information that you desire to present. You have the right to have representation of your choice present with you at the meeting. The request for review must be filed within seven days of receiving this notification. The request for review should be directed in writing to C. L. Kelley, Chairman, SRB, Tennessee Valley Authority, Warehouse Row 5G, Chattanooga, Tennessee 37402-2801.

Sincerely,

Ralph E. Thompson
Manager
Personnel Security
Warehouse Row, 5G-C
