  3. NRC E-Mail, G. M. McCann to E. K. Hackmann, entitled "NOV Response," dated November 28, 2007

Dear Sirs:

This letter follows up on my telephone conversation (telcon) with Mr. Patrick L. Loudon, NRC Region III, on December 10, 2007, regarding a due date extension for Westinghouse's response to violations cited in NRC Inspection Report 070-00036/07-01 (Reference 1). In this telcon, Mr. Loudon indicated preliminary agreement with Westinghouse's request for an additional seven days to finalize and submit its written response to the violations. This letter submits Westinghouse's formal request for the due date extension. Upon NRC approval of this request, the new response due date would be changed from the previously approved due date of December 11, 2007 (References 2 and 3), to December 18, 2007.

If you have any questions concerning this letter, please contact Matt Featherston, Hematite Licensing Manager, at 314-810-3361.

Sincerely,

A handwritten signature in black ink, appearing to read 'E. Kurt Hackmann', with a long horizontal line extending to the right.

E. Kurt Hackmann  
Director, Hematite Decommissioning Project
