Southern Nuclear Operating Company
Vogtle Early Site Permit Application - Revision 3

Ladies and Gentlemen:

On August 14, 2006, Southern Nuclear Operating Company (SNC) submitted an application to the U.S. Nuclear Regulatory Commission (NRC) requesting an Early Site Permit (ESP) for two additional reactor units at the Vogtle Electric Generating Plant (VEGP). The application was submitted in accordance with Part 52, Subpart A of Title 10 of the Code of Federal Regulations. SNC subsequently submitted Revisions 1 and 2 of the ESP application to the NRC on November 13, 2006 and May 3, 2007, respectively. However, as a result of SNC responses to NRC Safety Evaluation Report (SER) open items and NRC requests for additional information (RAIs) on limited work authorizations (LWAs), SNC has revised the ESP application. The application revision (Revision 3) also includes Supplement 2-S1 to the ESP application that was submitted to the NRC on August 15, 2007. A summary of the Revision 3 changes is provided in Enclosure 2.

As noted in our August 14, 2006 submittal letter, there is a limited amount of owner proprietary and sensitive information contained in Sections 8.4.1 and 10.4.1 of the ESP application's Environmental Report (ER). The information in these ER sections has not changed since Revision 0 of the ESP application, and therefore, is the same information as contained in our August 14, 2006 submittal letter. SNC again requests that this information be withheld from public disclosure (i.e., non-publicly available), in accordance with 10 CFR 2.390(b). In addition, SNC requests a waiver of the affidavit requirement for original affidavits, in accordance with 10 CFR 2.390(b)(1)(ii), on the grounds that the original affidavits supporting a request for withholding of the information are already on file with the NRC. Enclosure 1 contains a copy of the affidavits for withholding that was submitted with our August 14, 2006 submittal letter in accordance with 10 CFR 2.390.

Electronic versions (i.e., compact discs [CDs]) of both the publicly available and the non-publicly available versions are provided as Enclosures 3 and 4, respectively, and have been prepared to NRC specifications for electronic submittals. The publicly available and non-publicly available CDs are each complete versions of the revised (Revision 3) ESP application. The Revision 3 ESP

DO78
KIRO

application CD replaces and supersedes the existing Revision 2 ESP application, including Supplement 2-S1. In addition, by copy of this letter, four (4) copies of the non-publicly available revised ESP application on CD, thirty (30) copies of the publicly available revised ESP application on CD and four (4) hard copies of the non-publicly available revised ESP application pages (changed pages only) are being provided to the NRC Vogtle ESP Project Manager. Instructions for inserting the changed hard copy pages into the ESP application are included with the Revision 3 hard copies.

Finally, as committed to in our October 15, 2007 submittal letter (AR-07-1773), SNC has provided a revised set of Emergency Action Levels (EALs) for VEGP Units 3 and 4 (on CD) in Enclosure 5.

The SNC licensing contact for this revised application is J. T. Davis at (205) 992-7692.

This revised ESP application does not contain restricted data or other defense information that requires separation from the unclassified information in accordance with 10 CFR 50.33(j) pursuant to 10 CFR 52.17(a)(1).

Mr. J. A. (Buzz) Miller states he is a Senior Vice President of Southern Nuclear Operating Company, is authorized to execute this oath on behalf of Southern Nuclear Operating Company and to the best of his knowledge and belief, the facts set forth in this letter are true.

Respectfully submitted,

SOUTHERN NUCLEAR OPERATING COMPANY

Joseph A. (Buzz) Miller

Enclosure 1

Affidavits for Withholding

from

August 14, 2006 Submittal Letter

AFFIDAVIT OF OSCAR HARPER

I, Oscar C. Harper IV, Vice President, Resource Planning and Nuclear Development of Georgia Power Company ("Georgia Power") state that:

1. I am authorized to execute this affidavit on behalf of Georgia Power.
2. Georgia Power is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) and fuel needs data (as indicated in Chapter 10 of the Environmental Report, Section 10.4.1)(the "Information"). The Information is proprietary, trade secret, and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by Georgia Power.
 - b. The Information is of a type that is held in confidence by Georgia Power and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning Georgia Power's need for power data, reserve margin and fuel needs.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of Georgia Power by disclosing its need for power data, reserve margin and fuel needs data to other parties whose commercial interests may be adverse to those of Georgia Power.
3. The Information is the type of data that Georgia Power protects in its filings with the Georgia Public Service Commission in accordance with such Commission's practice for protecting such information. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3)

otherwise compromise Georgia Power's ability to procure the best cost resources from the energy marketplace. Southern Nuclear Operating Company ("SNC"), working on behalf of the owners, has limited the access to the Information to those SNC individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, Georgia Power requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

AFFIDAVIT OF MICHAEL W. PRICE

I, Michael W. Price, Chief Operating Officer, of Oglethorpe Power Corporation (An Electric Membership Corporation) ("Oglethorpe") state that:

1. I am authorized to execute this affidavit on behalf of Oglethorpe.
2. Oglethorpe is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) (the "Information"). The Information is proprietary, trade secret and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by Oglethorpe.
 - b. The Information is of a type that is held in confidence by Oglethorpe and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning Oglethorpe's need for power data and reserve margin.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of Oglethorpe by disclosing its need for power data and reserve margin to other parties whose commercial interests may be adverse to those of Oglethorpe.
3. The Information is the type of data that Oglethorpe holds confidential. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3) otherwise compromise Oglethorpe's ability to procure the best cost resources from the energy marketplace. Oglethorpe provided the Information for inclusion in the ESP Application pursuant to agreements that require that access to the Information be

limited to individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, Oglethorpe requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

AFFIDAVIT OF ROBERT P. JOHNSTON

I, Robert P. Johnston, President and Chief Executive Officer of the Municipal Electric Authority of Georgia ("MEAG"), state that:

1. I am authorized to execute this affidavit on behalf of MEAG.
2. MEAG is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) (the "Information"). The Information is proprietary, trade secret, and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by MEAG.
 - b. The Information is of a type that is held in confidence by MEAG and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning MEAG's need for power data and reserve margin.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of MEAG by disclosing its need for power and reserve margin data to other parties whose commercial interests may be adverse to those of MEAG.
3. The Information is the type of data that MEAG holds confidential. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3) otherwise compromise MEAG's ability to procure the best cost resources from the energy marketplace. Southern Nuclear Operating Company ("SNC"), working on behalf of the owners, has limited the access to the

Information to those SNC individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, MEAG requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

AFFIDAVIT OF DON COPE

I, Don Cope, President and Chief Executive Officer of Dalton Utilities, representing the Board of Water, Light and Sinking Fund Commissioners of the City of Dalton, Georgia, an incorporated municipality in the State of Georgia, state that:

1. I am authorized to execute this affidavit on behalf of Dalton Utilities.
2. Dalton Utilities is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1 (the "Information"). The Information is proprietary, trade secret, and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by Dalton Utilities.
 - b. The Information is of a type that is held in confidence by Dalton Utilities and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning Dalton Utilities' need for power data and reserve margin.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of Dalton Utilities by disclosing its need for power and reserve margin data to other parties whose commercial interests may be adverse to those of Dalton Utilities.
3. The Information is the type of data that Dalton Utilities holds confidential. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3) otherwise compromise Dalton Utilities' ability to procure the best cost resources from the energy marketplace. Southern Nuclear

Operating Company ("SNC"), working on behalf of the owners, has limited the access to the Information to those SNC individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

Enclosure 2

Description of Changes in Revision 3

of the

Vogtle Early Site Permit Application

Vogtle Early Site Permit Application Description of Changes in Revision 3	
Affected Sect., Tbl., or Fig.	Reason for Change
Application Parts 1, 2, 4 and 5	
All pages with application revision levels	Revision level changed to "3" due to conversion to FrameMaker
Application Overall Title Sheet and Table of Contents	
Revision Summary	Deleted since Parts 1, 2, 4 and 5 chapters/sections are always the current revision level and Part 3 sections are 'frozen' at Revision 2, never to change again
Application Part 1 – Administrative Information	
Section 2.1	Specified Part 3 sections are 'frozen' due to DEIS issuance
Section 2.2	Revised due to Revision Summary deletion and clarified to exempt appendices from application formatting convention
Section 2.2.5	Revised to reflect revision level changes due to conversion to FrameMaker
Section 3.4	Updated SNC/GPC/Co-Owner specified management and associated addresses
Application Part 2 – Site Safety Analysis Report	
TOC, LOT and LOF	Updated to reflect SSAR changes in below chapters/sections
Chapter 1	Revised due to incorporation of Supplement 2-S1 and per response to SER open item in SNC letter AR-07-1773
Fig. 1-4 & 1-5	Revised due to general updating
Section 2.3	Revised per response to SER open item in SNC letter AR-07-1773
Section 2.4.12	Revised to include results of numerical groundwater modeling as committed to in response to SER open item from SNC letter AR-07-1773
Section 2.4.13	Revised to include results of numerical groundwater modeling as committed to in response to SER open item from SNC letter AR-07-1773
Section 2.5.1	Revised per RAI responses from SNC letter AR-07-1162
Section 2.5.2	Revised per RAI responses from SNC letter AR-07-1162 and responses from SER open items in SNC letter AR-07-1773
Section 2.5.4	Revised per commitments made in SNC letter AR-07-1421, per SER open item responses made in AR-07-1773, per RAI responses made in AR-07-1802, and from additional site boring information
Section 3.8.5	Section added due to incorporation of Supplement 2-S1 and later revised per RAI responses from SNC letter AR-07-1802
Fig. 13.3-2	Revised due to general updating
Section 13.7	Revised due to incorporation of Supplement 2-S1 and due to RAI responses from SNC letter AR-07-1802
Appendix 17.1A	Added new Appendix 17.1A in accordance with RAI responses from SNC letter AR-07-1801
Application Part 4 – Site Redress Plan	
TOC	Updated to reflect new Section 1.4
Section 1.1	Revised to incorporate new NRC rule on LWA
New Section 1.4	Added new section to describe requested LWA activities
Section 1.5	Section renumbered and revised to incorporate new NRC rule on LWAs

Vogtle Early Site Permit Application Description of Changes in Revision 3	
Affected Sect., Tbl., or Fig.	Reason for Change
Application Part 5- Emergency Planning	
Base Plan	<ul style="list-style-type: none"> - Clarified/revised position titles in Section B to be consistent with the current site organization - Added definitions for hostile action and hostile force in Section D to be consistent with VEGP Units 1 and 2 EP - Clarified personnel to be notified in Section E to be consistent with VEGP Units 1 and 2 EP - Revised training commitment to OSHA standard and directive CPL 02-02-053 in Section L - Revised First Aid training commitment and training cross reference table in Section O - Revised to reflect organizational changes and clarified text regarding 50.54(t) audits and corrective action responsibilities in Section P
Annex V2	Revised ITAAC tables per responses to SER open items in SNC letter AR-07-1773, and revised Hot and Cold IC Tables to reflect NEI 07-01 revision and associated revision to VEGP Units 3&4 EALs

General Notes:

- 1) Due to NRC issuance of the Draft Environmental Impact Statement for the Vogtle ESP Application (i.e., NUREG-1872) on September 4, 2007, the ER is considered a 'frozen document' that will no longer be revised. All ER page footers now indicate "Revision 2" as the revision level, and all right-hand margin change bars in the ER have been removed.
- 2) With the exception of ER pages, the remaining ESP application pages with footer revision level/date indicators have been changed to "Revision 3 November 2007." This action was necessary due to document conversion to FrameMaker. Information that actually changed from the previous revision of the ESP application is denoted by revision bars in the right-hand margin.
