Docket Nos. 50-335 and 50-389
Notice of Intent to Pursue Extended Power Uprates

In an effort to keep the NRC informed of future significant licensing actions for FPL, the purpose of this letter is to notify the NRC of our plans to submit License Amendment Requests (LARs) for Extended Power Uprates for St. Lucie Nuclear Plant Units 1 and 2. We plan to submit these LARs during the third quarter of 2009 in order to support implementation of Unit 1 during Fall of 2011, and Unit 2 during Spring of 2012.

If you have any questions regarding this information, please contact Stephen T. Hale at (561) 694-4016, or Jack Hoffman at (772) 467-7493.

Very truly yours,
