Subject: Modification of USNRC License No. 09-11149-03, License Application dated February 21, 2003

03014904

Dear Mr. Lawyer,

Answers to your questions are provided below to facilitate the amendment request as stated in our letter dated October 22, 2007 to allow option to conduct annual self audits or third party audits of the radiation protection program.

1. License Item 8.B. needs to state total possession limit.
Please change to read: Not to exceed 3.7 GBq (100 mCi) per source and 185 GBq (5 Ci) total. For Hydrogen 3 – not to exceed 370 GBq (10 Ci) per source, and 3.7 Terabecquerels (100 Ci) total.

License Item 8.H. needs to state total possession limit.
Please change to read: Not to exceed 3.7 Terabecquerels (100 Ci) per radionuclide, and 5.5 Terabecquerels (150 Ci) total.

2. Question was raised about license limits and financial assurance.
License condition #28 already limits the license so no financial assurance is required.
3. Requested new Certificate of Financial Assurance.
Financial Assurance is not required.

2007 DEC 13 AM 11:12
RECEIVED
REGION 1

If you have any questions regarding this change please contact me at 321-867-6958 or E-Mail me at randall.e.scott@nasa.gov.

Cordially,

A handwritten signature in black ink that reads "Randall Scott".

Randall Scott,
KSC Radiation Protection Officer/
NRC License RSO
