Not terribly helpful... Still waiting to hear what my old ELM boss has to say, and am doing some more digging on university websites.

Sarah

my two ideas are:

New York State DEC keep several large databases of fish populations.

or

The Hudson River Foundation is probably a good source for contact addresses. Check with Dennis J. Suszkowski (dennis@hudsonriver.org). Their report database could also be good source.

not sure I know dennis but I am better with faces than names.

cheers robin
