Leah,

We need additional information regarding the name change to ensure that there will be no direct or indirect transfer of control of BWXT license. The information presented in your submittal does not provide us substantiating facts and circumstances for the staff to conclude that the Atomic Energy Act Section 184 requirements have not been triggered here.

I will be preparing a letter requesting additional information.

I have attached an example case that may be helpful to you in the mean time. It is NRC's response to Molycorp concerning a similar action. The letter is public and in ADAMS (ML720500941).

I will be out of the office on Friday, November 23, 2007, but Mary Adams is my back up and she may be able to help you if you have any questions. She can be reached at 301 415-3113 or MTA@nrc.gov.

Sincerely,
Amy
