In a letter from J. E. Gilleland to H. R. Denton dated March 21, 1979, TVA submitted the Contingency Plans for Browns Ferry, Sequoyah, Watts Bar, and Bellefonte Nuclear Plants. In a letter dated July 20, 1979, from T. A. Ippolito to H. G. Parris, the NRC requested additional information on the Browns Ferry Contingency Plan. This information was provided on October 4, 1979, in a letter from L. M. Mills to T. A. Ippolito.

As a result of the July 20, 1979, information request, TVA has revised the Contingency Plans for Browns Ferry and for Watts Bar, Sequoyah, and Bellefonte. The revised Contingency Plan for Browns Ferry was submitted on October 18, 1979, by letter from L. M. Mills to T. A. Ippolito.

Enclosed are revised copies 6 through 10 of the Sequoyah, Watts Bar, and Bellefonte Contingency Plans including updating instructions and an applicable receipt form. This form must be signed and dated by the individual for each plan and returned to TVA with superseded pages. The enclosed information is security-related and should be withheld from public disclosure in accordance with 10 CFR Part 50 Section 2.790(d).
