MA APP 13

Gentlemen:

With an application dated April 27, 1979, and supplement dated September 28, 1979, the Authority requested that the Office of Nuclear Reactor Regulation (ONRR) extend the latest completion dates set forth in Construction Permits CPPR-91 and CPPR-92 for the Watts Bar Nuclear Plant Units 1 and 2. Your application was not accompanied by fees as required by 10 CFR 170.12(c) and 170.22.

Based on information provided by the ONRR staff as a result of a preliminary review of your application, it has been determined that the requested action is administrative in nature. As such, a Class II fee of \$1,200 is required for one unit and a duplicate fee of \$400 is required for the other unit. Therefore, it is requested that a sum of \$1,600 be remitted to our office for the above application. If the final review of this application by the ONRR staff reveals that these fees are incorrect, an adjustment will be made.

Sincerely,

151

Reba M. Diggs
Facilities Program Coordinator
License Fee Management Branch
Office of Administration
