Dear Mr. Parris:

Subject: Watts Bar Review Schedule

The Watts Bar Safety Evaluation Report (SER, NUREG-0847, dated June 1982) and Supplement No. 1 (dated September 1982) identify a number of open and confirmatory items which require resolution before the safety review for the Watts Bar facility is complete. In order for us to complete this task, it is important that you provide us schedules for submitting information to respond to these concerns.

Therefore, we request that, within 15 days of receipt of this letter, you provide us with a realistic schedule for submittal of responses to all outstanding information requests. Issuance of the next supplement to the SER will then be scheduled accordingly.

If you have any questions concerning this matter, please contact the project manager, T. J. Kenyon, at (301) 492-7266.

Sincerely,
