Dennis,

The State of Connecticut Department of Environmental Protection's Division of Radiation has performed a confirmatory radiological survey at the Courage facility located at 322 East Main Street, Branford Connecticut.

This facility is in the process of seeking termination of their existing US Nuclear Regulatory Commission license, 06-30667-02.

The survey was performed taking fixed measurements, surface scans, and wipe samples for removable contamination.

No activity above natural background was detected in the survey.

If you have any questions please feel free to ask me.

Dennis,

The State of Connecticut, Department of Environmental Protection has reviewed the Draft Environmental Assessment prepared by the US NRC for the CuraGen Corporation facility in Branford, Connecticut and has no questions or issues with it.

FYI, we will be performing confirmatory surveys at the facility next Tuesday, December 4.

Michael E. Firsick
