To all,

Please find attached one additional section from the Exponent report regarding the wastage of nozzle 3 of the Davis-Besse head that may be helpful to review in advance of tomorrow's call.

FENOC shipped the entire 757 page report to headquarters (Wengert/Collins) and Region III yesterday afternoon. In the event that we do not receive the report before the meeting, the sections attached in this e-mail and my previous e-mail should provide us with the information we need to conduct the call tomorrow.

Eric.
