Tennessee Valley Authority ) 50-391

By your letter dated May 24, 1983 to H. G. Parris, TVA was requested to provide responses to NRC concerns in the form of revisions to the Watts Bar Nuclear Plant Physical Security Plan by July 5, 1983. As discussed with the NRC project manager, TVA was not able to meet this schedule but anticipated providing the requested information by September 23, 1983 to support the Supplement to the Safety Evaluation Report (SSER). We now expect to provide the subject revisions by November 18, 1983.

If you have any questions concerning this matter, please get in touch with D. P. Ormsby at FTS 858-2682.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
