Dear Mr. Youngblood:

In the Matter of the Application of ) Docket Nos. 50-390  
Tennessee Valley Authority ) 50-391

In J. A. Domer's letter to E. Adensam dated September 3, 1985, we had previously requested an extension of the expiration date in Construction Permit No. CPPR-91 (unit 1) to March 1986. Fuel load will continue to be delayed pending resolution of outstanding licensing issues involving employee concerns, environmental qualification of electrical equipment and welding. We therefore request an extension of the date in Construction Permit No. CPPR-91 (unit 1) to March 1987. The date specified in Construction Permit No. CPPR-92 (unit 2) is presently September 1987 and remains unchanged.

If there are any questions, please get in touch with K. P. Parr at FTS 858-2681.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
