Gentlemen:

In the Matter of the Application of) Docket Nos. 50-390
Tennessee Valley Authority) 50-391

REQUEST FOR DELAY OF REVIEW OF GENERIC PHYSICAL SECURITY/CONTINGENCY PLAN

Please refer to my November 26, 1986 letter to Harold Denton which submitted TVA's Generic Physical Security/Contingency Plan (PS/CP) for NRC's review and approval. TVA requests a delay of NRC's review of the Generic PS/CP. The miscellaneous amendments and search requirements submitted in that plan will be resubmitted separately as revisions to the current PS/CP submitted for Watts Bar Nuclear Plant or in our future resubmission of a TVA Generic PS/CP. This action is being taken to provide more time for TVA to reevaluate the November 1986 Generic PS/CP submittal.

This reevaluation is due in part to the complete reorganization of TVA security which has occurred since the Generic PS/CP submittal. This request does not change TVA's intent to consolidate all currently approved and future site-specific PS/CPs into a single Generic PS/CP. TVA will be working closely with Region II and NRR as necessary to ensure all concerns are resolved before resubmitting a supplement to the Generic PS/CP for your further review and approval.

This letter documents the August 3, 1987 telephone conversation with Gene McPeck, NRR, and W. M. Belvin of TVA's Office of Nuclear Power.

If you have any questions on this matter, please telephone Mr. Belvin at (615) 751-2693.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
