I talked to Beth Hayden this afternoon and explained that we would not have FENOC's comments until late Monday and that it would not be possible to issue the Order before the EOC meeting Wednesday night. I further emphasized that the Order was a corporate issue, not a Davis-Besse issue and that the Davis-Besse EOC meeting would not be an appropriate forum to discuss the Order and underlying issues.

She understood and was comfortable with the Order not being issued prior to the meeting.
