Mr. H. R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Denton:

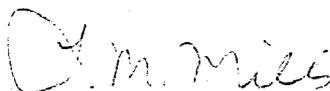

In the Matter of the) Docket No. 50-327
Tennessee Valley Authority)

Reference: Letter from L. M. Mills to H. R. Denton dated April 14, 1980,
Technical Specification Amendment Request TVA-SNP-TS-2

In the referenced letter, TVA requested an amendment to license DPR-77 to change the technical specifications of Sequoyah Nuclear Plant unit 1. The change involved an improved method for testing the material properties of the divider barrier seal. During the review of this technical specification change, NRC staff members in the Containment Systems Branch requested that TVA provide additional information to document the new test method. Enclosed for your review is a description of the new test program. Included in this document are figures showing the new test fixture.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
