STN 50-521
STN 50-553
STN 50-554
STN 50-566
STN 50-567

In response to D. G. Eisenhut's July 11, 1980, letter, we are providing in the enclosure the present best estimate of the construction completion dates and fuel load target dates for our Sequoyah, Watts Bar, and Bellefonte Nuclear Plants. Also, provided in the enclosure are the estimated dates for tendering the Operating License Applications (FSAR and ER) for the Hartsville, Phipps Bend, and Yellow Creek Nuclear Plants.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills, Manager
Nuclear Regulation and Safety

Enclosure

Boo!
5/11

ENCLOSURE
RESPONSE TO D. G. EISENHUT'S JULY 11, 1980, LETTER
(REVISED SCHEDULES)

CONSTRUCTION COMPLETION AND FUEL LOAD TARGET DATES
(Sequoyah unit 2, Watts Bar units 1 and 2, Watts Bar units 1 and 2)

TVA has reevaluated the time required to implement additional safety requirements and has adopted a policy of using a range of fuel loading schedules. Because of the resultant changes in design scope and availability of manpower, TVA has determined that construction of Sequoyah, Watts Bar, and Bellefonte may not be completed until the late date. However, expeditious treatment of the additional requirements could result in completion by the early date.

	<u>EARLY DATE</u>	<u>LATE DATE</u>
Sequoyah Unit 2	January 1981	July 1981
Watts Bar Unit 1	May 1981	November 1981
Watts Bar Unit 2	February 1982	August 1982
Bellefonte Unit 1	March 1983	June 1984
Bellefonte Unit 2	December 1983	February 1985

ESTIMATED DATES FOR TENDERING OL APPLICATIONS (FSAR & ER)

Hartsville Nuclear Plant	August 1983
Phipps Bend Nuclear Plant	August 1983
Yellow Creek Nuclear Plant	January 1983
