REGULATORY DOCKET FILE COPY

Mr. Ira Dinitz
Office of Antitrust & Indemnity
Directorate of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Tennessee Valley Authority - (Watts Bar Nuclear Station)
NELIA Policy NF-256

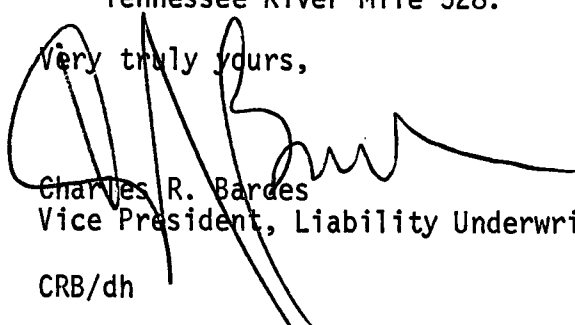

Dear Mr. Dinitz:

This is to confirm my telephone call today in which I stated that I had bound on behalf of the members of NELIA a nuclear energy liability facility form policy designated NF-256 with a policy limit of \$1 million covering the Watts Bar Nuclear Plant. The policy became effective 12:00 noon EDST on September 4, 1979.

The site description we anticipate utilizing is:

"All of the premises including the land and all buildings and structures known as the Watts Bar Nuclear Plant, including but not limited to the Units 1 and 2 nuclear reactors. The Watts Bar Nuclear Plant is located in Rhea County, Tennessee on the west bank of the Tennessee River at Tennessee River Mile 528."

Very truly yours,

Charles R. Bordes
Vice President, Liability Underwriting
