Dear Ms. Adensam:

In the Matter of the Application of) Docket Nos. 50-390
Tennessee Valley Authority) 50-391

During a telephone conference call on April 7, 1982, TVA was requested to provide a schedule for availability of the Process Control Program (PCP) for Watts Bar Nuclear Plant. TVA anticipates providing the PCP for the Watts Bar radioactive waste solidification program to the NRC by August 30, 1982.

We understand that this commitment is all that is required to remove the issue of the solid radioactive waste program from the Safety Evaluation Report open items list (SER item 23).

If you have any questions concerning this matter, please get in touch with D. P. Ormsby at FTS 858-2682.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
