Dear Ms. Adensam:

Unit 1 Unit 2

In the Matter of the Application of Tennessee Valley Authority

Docket Nos. 50-390

50-391

As a result of a recent review of the Watts Bar Nuclear Plant schedule, TVA's current projected fuel load dates for units 1 and 2 are as follows:

Previous Fuel Load Date	New Fuel Load Date
August 1983	January 1984
August 1984	January 1985

The revised dates reflect current system completion schedules and an assessment of remaining schedule uncertainties. Please note these revised dates fall within the completion dates specified in the latest NRC construction permit extension dated November 19, 1982.

If you have any questions concerning this matter, please get in touch with D. P. Ormsby at FTS 858-2682.

Very truly yours,
