Director of Nuclear Reactor Regulation  
Attention: Ms. E. Adensam, Chief  
Licensing Branch No. 4  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Ms. Adensam:

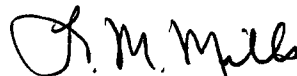

In the Matter of the Application of ) Docket Nos. 50-390  
Tennessee Valley Authority ) 50-391

Please refer to my letter to you dated December 2, 1983 which provided the latest schedule for completing the evaluation of the Watts Bar safety-related mechanical equipments' environmental qualification. TVA indicated that a schedule was being developed for transmitting the results of the evaluation to the NRC. Having assessed our resources in this area, the date of March 5, 1984 has been established for submittal of the required information. Our submittal will consist of (1) a summary of the evaluation results, (2) the identification of the corrective actions required, and (3) justifications for interim operation where necessary.

If you have any questions concerning this matter, please get in touch with Dave Ellis at FTS 858-2681.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills, Manager  
Nuclear Licensing
