Dear Ms. Adensam:

In the Matter of the Application of) Docket Nos. 50-390
Tennessee Valley Authority) 50-391

By letter dated April 18, 1977 from J. E. Gilleland to R. S. Boyd, TVA provided information concerning the fire protection program for Watts Bar Nuclear Plant (WBN). This information consisted of an item-by-item comparison to the guidelines of Appendix A to Branch Technical Position APCS9.5-1 and the results of a detailed fire hazards analysis. Enclosed is a revised report resulting from a recent TVA review of the WBN fire protection program. To assist in your review, margin lines have been used to indicate revisions to the April 18, 1977 submittal.

If you have any questions concerning this matter, please get in touch with D. P. Ormsby at FTS 858-2682.

Very truly yours,
