Gentlemen:

SUBJECT: WATTS BAR EMERGENCY EXERCISE (DOCKETS 50-390 AND 50-391)

Enclosed is a copy of a letter from FEMA Region IV to the Director of the Tennessee Emergency Management Agency concerning the subject exercise held on September 11-12, 1984. You should note that the letter addresses three problems identified by FEMA in the State of Tennessee's emergency public information program. The letter states the need for a revised public information program and indicates the need for a remedial drill to test the adequacy of the revised program.

In view of the bearing these findings have on the overall state of emergency preparedness for the Watts Bar facility, we encourage you to work closely with the offsite agencies to resolve this problem. A copy of the final FEMA report on this exercise will be transmitted to you as soon as it is received by this office.

If you have any questions in this matter please let us know. Our point of contact on this matter is Mr. W. E. Cline (404) 221-2665.

Sincerely,

Richard C. Lewis, Director  
Division of Reactor Projects
