To all,

To assist you all in retrieving Exponent Report related information from ADAMS, the following specific instructions are provided:

The accession number to view the Exponent Report is ML070860216. Using "normal" access techniques, you will only be able to view the 3-page letter from FENOC that transmits the report. To view the report itself, the following actions must be completed: 1) Right click on the accession number (ML070860216) for the document; 2) Highlight and select "Properties" at the bottom of the menu; 3) Left click on "Packages" at the top of the pop-up menu; 4) Right click on "Contents" at the top of the menu; 5) highlight and select "Contents"; 6) Wait a long time, 30 seconds or so, since the documents require a bit of time to load. After that the various chapters of the report will appear and you can select the chapter(s) you wish to view.

The accession number to view our response to the FENOC submittal of the Exponent Report is ML070930162.

The accession number for the Communication Plan is ML070940276.

You can also find these documents using the ADAMS search engine. The docket number is 05000346. The search keyword is "Exponent".

Eric.
