Subject: Another team takes the field

At the request of FENOC, Alex Marion and NEI have gathered a team to review the Exponent/Altran report as a sanity check before they get into any discussions with NEIL about the usefulness/validity of the report. The NEI team consists of: Peter Ford, John Hall, Pete Riccardella, Jim Begley, Les Spain and Steve Hunt, and perhaps others, but I don't think so. I'll probably hear for certain in the next few days, or maybe few hours. This should be interesting.

I am still awaiting word on the likelihood of NEIL putting together a team, however, time is winding down on the availability of well-informed people to serve on any NEIL-funded panel/committee/review team.
