Dear Ms. Adensam:

In the Matter of the Application of ) Docket Nos. 50-390  
Tennessee Valley Authority ) 50-391

Reference: R. H. Shell's letter to you dated April 18, 1985.

In response to your letter to H. G. Parris dated April 2, 1985 regarding additional information on the Watts Bar Nuclear Plant responses to Generic Letter 83-28, TVA must revise its response dates. Please note that item 2 was submitted to you by letter dated May 31, 1985; item 3 was submitted to H. L. Thompson by letter dated May 31, 1985; and item 5 will be submitted to you before startup after the first refueling outage as previously committed. The response to item 1, 4, and 6 will be submitted to you by approximately August 1, 1985 which is 30 days past the required date. This is due to having to revise a maintenance instruction pertaining to the reactor trip breakers.

If you have any questions concerning this matter, please get in touch with W. C. Ludwig of my staff at FTS 858-4882 in Chattanooga.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
