Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Denton:

This letter is to inform you that the Watts Bar Nuclear Plant Employee Concern Task Group has assumed responsibility for tracking and verification of corrective action on all remaining Nuclear Safety Review Staff (NSRS) open items. This includes the following:

1. The classical NSRS reports issued since the formation of the group in 1979.
2. The employee concern investigations and open items resulting from the NSRS/QTC Employee Concern Program begun in 1985.

Please advise your staff of this change in organizational responsibilities.

This was discussed with your staff in our meeting of May 12, 1986 regarding the Employee Concern Program.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

  
R. L. Gridley, Director
