Docket Nos. 50-390  
50-391

REVISED SCHEDULE FOR RESPONSE TO NRC'S EVALUATION OF WATTS BAR NUCLEAR PLANT  
(WBN) CONFORMANCE TO REGULATORY GUIDE (RG) 1.97, REVISION 2

Your letter to S. A. White dated July 24, 1986 provided NRC's evaluation of WBN plant's conformance to RG 1.97 and requested TVA to respond to specific staff questions. My September 30, 1986 letter to you stated that TVA planned to respond to those questions on or about February 17, 1987.

TVA and an outside consultant are currently developing responses to NRC's questions. This effort has not been completed because of resource allocation to the restart program for TVA's Sequoyah and Browns Ferry Nuclear Plants. TVA will provide a schedule for these responses as part of its April 10, 1987 submittal of the Watts Bar Nuclear Performance Plan, Volume 4.

If you have any questions on this topic, please get in touch with Dave Kulisek at (615) 365-8649.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

  
R. Gidley, Director  
Nuclear Safety and Licensing
