Dear Mr. Ebnetter:

In my meeting with the NRC staff on January 12, 1987, I committed to having the Watts Bar Nuclear Performance Plant (NPP), Volume 4, issued in about 90 days. I have since found it necessary to reassign certain essential resources from this effort to assist in the restart of the Sequoyah plant.

This reassignment has directly impacted my ability to have Volume 4 of the NPP issued within the time period promised and of the quality which I consider necessary. I will advise you of a new issue date as soon as I am able to do so.

Very truly yours,
