Docket Nos. 50-390
50-391

WATTS BAR NUCLEAR PLANT (WBN) - NRC AUDIT REPORT ON THE VERIFICATION AND
VALIDATION (V&V) PLAN FOR THE EAGLE 21 ELECTRONICS

NRC letter from J. A. Zwolinski to S. A. White dated April 27, 1987,
transmitted the NRC audit report on the V&V plan for the Eagle 21
Electronics. The letter also requested notification to NRC by TVA within 10
days in the event the report contained proprietary information. If
notification was not made the information would be made available to the
Public Document Room.

The letter was not received by the WBN Regulatory Licensing Group until the
end of the 10-day period. NRC was contacted (J. N. Donohew) to request an
extension which was granted to May 15, 1987. A review of the audit report
concluded that it does not contain material which is proprietary. A courtesy
call was placed on May 12, 1987, to Mr. Donohew to convey this information.
This letter provides confirmation that the audit report does not contain
proprietary material.

If there are any questions, please get in touch with R. J. McMahon at
(615) 365-8761.

Very truly yours,
