50-390/391

Gentlemen:

WATTS BAR NUCLEAR PLANT (WBN) - UNITS 1 AND 2 - RESCHEDULING OF COMMITMENT DATES

In our March 16, 1987 submittal, responding to G. G. Zech's February 12, 1987 letter to S. A. White, which transmitted Inspection Report Nos. 50-390/86-21 and 50-391/86-21, we committed to complete item 390/86-18-01, 391/86-18-01 section A, item 1 by September 1, 1987.

The original date of September 1, 1987 was based upon this work being performed within TVA and did not include a technical assessment of the equipment seismic qualification program by Stone & Webster Engineering Corporation (SWEC). TVA's recommendations have been provided to SWEC for their review and concurrence. SWEC will complete their review and TVA will finalize and approve the corrective action and implementation plan.

TVA's new compliance date will be unit 1 fuel load.

If there are any questions, please telephone R. D. Schulz at (615) 365-8527.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
