Washington, D.C. 20555

Dear Mr. Ebnetter:

WATTS BAR NUCLEAR PLANT (WBN) VERTICAL SLICE REVIEW (VSR) PLAN

My May 27, 1988 letter to you provided the Watts Bar Program Plan (WBPP). A primary objective of the WBPP is to perform a systematic evaluation of WBN to assure that its design and construction meet the licensing requirements. The VSR is a principal feature of this systematic evaluation.

Enclosed is the plan for this VSR for your review and concurrence. The VSR Plan was prepared by Sargent & Lundy, the independent contractor selected by us to perform the VSR. This plan has been reviewed and accepted by the Watts Bar Program Team (WBPT). More detailed requirements to execute this VSR Plan are being incorporated in the implementing procedures being developed by the WBPT, VSR team, and WBN line organizations.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

S. A. White
Manager of Nuclear Power
