Gentlemen:

In the Matter of the Application of )  
Tennessee Valley Authority ) Docket Nos. 50-390  
50-391

WATTS BAR NUCLEAR PLANT (WBN) - CORRECTIVE ACTION PROGRAM (CAP) PLAN FOR WELDING

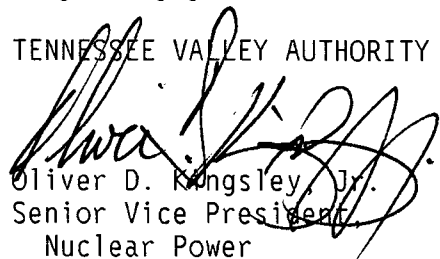

Enclosed is the CAP plan for welding for WBN's unit 1. This CAP plan is provided for NRC's review and concurrence in accordance with the Watts Bar Program Plan of May 27, 1988.

As discussed with you in our meeting on October 11, 1988, Teledyne Engineering Services (TES) has performed an independent review of the Department of Energy's weld evaluation project and TVA's welding project activities for the Watts Bar Program Team (WBPT). The results of TES's review are documented in their Technical Report TR-6713A-4, dated December 5, 1988. TES's recommendations have been incorporated in the attached CAP. Any further actions required will be evaluated by WBPT. A summary of commitments contained in this CAP is provided in enclosure 2.

If there are any questions, please telephone J. F. Cox at (615) 365-3307. My signature below indicates my approval of the enclosed CAP plan.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

  
Oliver D. Kingsley, Jr.
