RESPONSE TO NRC'S REQUEST FOR CLARIFICATION ON TVA ORGANIZATIONAL TOPICAL REPORT

- References:
1. TVA Topical Report No. TVA-NPOD89 TVA to NRC, dated June 1, 1990
 2. TVA Topical Report No. TVA-NPOD89 Rev. 1 TVA to NRC, dated March 9, 1990
 3. Response to NRC's questions on TVA Organizational Topical Report, dated June 27, 1990
 4. Telecon between Earl McKeown (TVA) and Jack Donohew and Fred Allenspach (NRC) on July 27, 1990

The purpose of this letter is to provide NRC with information which will clarify the planned Watts Bar Nuclear Plant (WBN) operating organization. This information was requested during the July 27, 1990 telecon, Reference 4.

Enclosure 1 provides three additional organization charts which show the planned operating organization for the Watts Bar Nuclear Plant. These charts are provided to clarify the intent of the Topical Report TVA-NPOD89 footnote on page 7-2 which states, "The WBN organization will be transitioned to the SQN model by startup...." These new charts and the minimum shift crew composition information provided in our letter dated June 27, 1990 (Reference 3), will be incorporated in the next topical report revision.
