John H. Garrity Vice President, Watts Bar Nuclear Plant

DEC 02 1991

U.S. Nuclear Regulatory Commission ATTN: Document Control Desk Washington, D.C. 20555

Gentlemen:

In the Matter of the Application of)
Tennessee Valley Authority)

Docket Nos. 50-390

WATTS BAR NUCLEAR PLANT (WBN) - SEISMIC ANALYSIS CORRECTIVE ACTION PROGRAM (CAP) COMPLETION

Revision 2 to the Seismic Analysis CAP was submitted to the Nuclear Regulatory Commission on May 9, 1990. NRC Inspection 390, 391/89-21 reviewed implementation of this CAP. Resolution of all Inspection Report 89-21 open items was completed with the NRC on-site audit of the Watts Bar Seismic Analysis Corrective Action Program Plan (TAC No. (R00514), as summarized in the audit report dated October 10, 1990.

This letter is to notify NRC that TVA has completed the Seismic Analysis Corrective Action Program, thereby providing assurance that the seismic designs of structures, systems, and components are technically adequate and satisfy licensing requirements. This submittal contains no new commitments.

If you have any questions, please telephone P. L. Pace at (615) 365-1824.

Sincerely,

John H. Garrity
