Tennessee Valley Authority	)	50-391

WATTS BAR NUCLEAR PLANT (WBN) - COMMITMENT SCHEDULE

TVA's letter dated March 26, 1991 committed to submit a revised schedule for commitment completion 45 days after the resumption of construction.

NRC concurred with TVA's decision to restart construction on November 22, 1991. TVA is, however, still in the process of reevaluating the schedules for commitment completion. As discussed with the Region II staff, TVA will submit the revised commitment schedule by January 24, 1992.

If you have any questions, please telephone P. L. Pace at (615) 365-1824.

Sincerely,

  
John H. Garrity
