Dear Sir:

SUBJECT: WATTS BAR UNIT 1 - MASTER FUSE LIST CORRECTIVE ACTION PROGRAM  
(TAC M76973)

By letter dated July 31, 1990, TVA responded to staff concerns identified in Section 3.3.5 of NUREG-1232, Volume 4, "Safety Evaluation Report on the Watts Bar Nuclear Performance Plan". Section 3.3.5 described the staff's concerns about the Master Fuse List Corrective Action Program (CAP). By letter dated May 31, 1991, TVA responded to the staff's request for additional information dated February 6, 1991. In response to a second request dated November 27, 1991, TVA provided additional information by letter dated January 31, 1992.

The enclosed safety evaluation presents our detailed review findings of the above submittals. We conclude that all issues of the Master Fuse List CAP have been acceptably resolved. We will accordingly update the program review status of this CAP in Section 1.13.1 of Supplement 9 to the Watts Bar SER.

Sincerely,

Original signed by
