Dear Dr. Medford:

SUBJECT: WATTS BAR NUCLEAR PLANT - INTEGRATED DESIGN INSPECTION (TAC M63594)

The staff previously performed an Integrated Design Inspection (IDI) from January 7-18 and February 4-8, 1991 (Inspection Report 50-390/91-201), and found that the civil/structural area (which includes piping) was not ready to be inspected. As a result of a site review performed by Messrs. Gene Imbro and Hai-Boh Wang, we jointly determined with your site staff that an IDI covering civil/structural issues can take place in July 1992.

We discussed this with Mr. Wayne Massie, of your site licensing staff, and agreed that a "bagman" visit will take place June 1-2, 1992, to be followed by two IDI sessions, July 13-17 and July 27-August 7, 1992. The team leader is Mr. Anil S. Gautam who will communicate directly with Mr. Massie regarding details of the visit and IDI sessions.

Sincerely,
