

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555  
June 5, 1989

Docket Nos. 50-390 and 50-391  
License Nos. CPPR-91 and CPPR-92  
EA 88-253

Mr. Marvin Runyon, Chairman  
Board of Directors  
Tennessee Valley Authority  
Knoxville, Tennessee 37902

Dear Mr. Runyon:

In your letter of November 21, 1988, to James Lieberman, Director of the NRC's Office of Enforcement, you indicated that the TVA did not intend to challenge the staff's October 21, 1988 Notice of Violation or seek further review of the issue. Your letter, together with the letter of March 24, 1989 from O. D. Kingsley, Jr., Senior Vice President, Nuclear Power, described corrective measures to ensure that TVA's submittals to the Commission meet high standards of completeness and accuracy. Your actions were acknowledged by Mr. Lieberman's letter dated April 20, 1989.

As you are aware, Steven A. White, TVA's former Senior Vice President-Nuclear Power, and his attorneys submitted a separate response to the NOV, which we have considered carefully. As a result of this reconsideration, the Commission has issued a restatement of the Notice of Violation. The restated Notice of Violation and accompanying letter to Mr. White are enclosed. The three violations stated in the original NOV have been restated and combined into a single violation. No further reply from TVA regarding the violation is required, nor do we require any further response regarding the corrective actions.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the NRC Public Document Room.

Sincerely,

Hugh L. Thompson, Jr.  
Deputy Executive Director for  
Nuclear Materials Safety, Safeguards,  
and Operations Support

Enclosure: As stated
