2. Pursuant to 10 CFR 76.35(i), 10 CFR 76.35(j), and 10 CFR 76.35(k) USEC has prepared a "Portsmouth Gaseous Diffusion Plant Security Program (GDPSP)" which describes the measures used by USEC at the Portsmouth plant to a) protect off-site shipments of special nuclear material of low strategic significance; b) physically protect special nuclear material that the corporation uses, possesses, or has access to at fixed sites; and c) physically protect and control classified matter. USEC is submitting changes to the Portsmouth GDPSP in Revision 88, December 19, 2007, to its application for a certificate of compliance for the Portsmouth plant under 10 CFR Part 76.

3. 10 CFR 2.390(d)(1) states that correspondence and reports to or from the NRC containing information concerning an applicant's physical protection not otherwise designated as Safeguards Information or classified as National Security Information or Restricted Data are deemed to be confidential commercial or financial information exempt from public disclosure. The GDPSP contains such information. Accordingly, USEC requests that the changes to the "Portsmouth Gaseous Diffusion Plant Security Program (GDPSP)" contained in Enclosure 2 of USEC letter GDP 07-0034 be withheld from public disclosure pursuant to section 147 of the AEA, 42 U.S.C. § 2167, and 10 CFR 2.390(a)(3), 2.390(d)(1) and 9.17(a)(4).
4. Steven A. Toelle, having been duly sworn, hereby confirms that I am the Director, Regulatory Affairs of USEC, that I am authorized on behalf of USEC to review the information attached hereto and to sign and file with the Nuclear Regulatory Commission this affidavit and the attachments hereto, and that the statements made and matters set forth herein are true and correct to the best of my knowledge, information, and belief.
