Summary: Should Dr. Welsh be removed from being an authorized user? Yes she should. Are the new authorized users all Ph.D.? Yes they are. Dr. Paushkin only had experience in P-32 and P-33 is just that material authorization sufficient? I will ask and inform you later. As a limited scope licensee you are not authorized to move to new locations without getting your license amended. Mr. McDonald said he didn't realize that. I said that to remove the location currently approved would take 2-3 months and I discussed the pros and cons of getting it removed at this time. He said to perform the amendment without removing the old location at this time and they will review if they should remove the location. I also discussed that scans should be done in the laboratory.

Action Required: Mr McDonald will state if P-32 and P-33 authorization is sufficient for Dr. Paushkin or submit other information.
