MEMORANDUM FOR: Office Directors  
 Regional Administrators

FROM: Victor Stello, Jr.  
 Executive Director for Operations

SUBJECT: WATTS BAR

Note the attached memo from Ben Hayes.

Please advise your personnel to keep notes on future contacts with TVA on that relatively narrow range of issues which pertain to the TVA's position regarding compliance with Appendix B including the preparation of the March 20, 1986 and June 5, 1986 letters on that subject. OI should be provided copies. They need not be formal, but should be sufficient to provide recall of the principal elements of the contact/action. This simple requirement should not be construed to constrain in any way the normal business of the agency in this area.

Past interactions with TVA on this issue should be summarized similarly to the best of people's ability to reconstruct history, but should be limited to the February through July 1986 time frame and should not be allowed to become a major, time consuming activity. OI should also receive copies of these notes.

OI should also be advised of meetings with TVA on this subject. I should be consulted prior to any thought given to cancellation or adjustment of a meeting based on OI advice.

This policy is in effect until such time as OI completes its work which is currently scheduled for April, 1987.

*Victor Stello, Jr.*  
 Victor Stello, Jr.  
 Executive Director  
 for Operations

February 2, 1987

MEMORANDUM FOR: Victor Stello, Jr.  
Executive Director for Operations

FROM:  Ben B. Hayes, Director  
Office of Investigations

SUBJECT: WATTS BAR: POSSIBLE WILLFUL ATTEMPT BY TVA TO MISLEAD THE  
NRC (CASE NUMBER 2-87-002)

In response to your January 12, 1987 oral request for an investigation, the Office of Investigations (OI) commenced an investigation regarding TVA's letter of March 20, 1986, concerning their compliance with the requirements of 10 CFR 50, Appendix B, at Watts Bar Nuclear Power Plant.

I request that any prior or future conversations, contacts between NRC personnel and TVA representatives pertaining to the preparation, submission and/or requests for clarifying information with respect to the TVA corporate position regarding compliance with Appendix "B" be memorialized in memorandum to file with a copy sent to the Director, OI. Further, any request for meetings with TVA representatives to discuss this area should be coordinated with OI.

Lastly, I request that all notes pertaining to the aforementioned contacts, including those taken during related inspection activities, be retained by the NRC employees who generated them until this matter has been adjudicated.
