Subject: Clarificarion of Dr. Herman's experience

(NOTE: This will be used as the Documents Title in ADAMS)

Summary: In an amendment request the licensee requested that Dr. Herman's authorization be expanded to include the use of I-131. Dr. Herman documented 10 cases of I-131 < 33 millicuries and 3 cases of > 33 millicuries under an Englewood physician preceptor. After discussions with P. Lanzisera and a reveiw of the Branch Meeting minutes it was determined that because Dr. Herman was initially added to the license with and ABR certificate, the 80 hours of classroom training would be waived. That being the case, Dr. Herman's authorization has been expanded to include the use of I-131.
