Hi Bo,

We'll be sure to put you and Jill on any correspondence regarding Indian Point from now on. And our letter of 10/4/07 responds to your request of 8/16/07 regarding ESA-listed species present. Your incoming also requested information on Essential Fish Habitat, and I'm not sure if you've received anything from our Habitat Conservation Division.

Pat,

For some reason, NMFS's 10/4/07 letter from M. Colligan to the NRC (File Code: Sec 7 NRC Indian Point Relicensing, PCTS: T/NER/2006/07100) was not processed through our Rules & Directives branch until today.

In future correspondence regarding the Indian Point license renewal review, could you please cc myself (Bo Pham) and Jill Caverly instead of Harriet Nash, since she is no longer with our office? Our mailing address is:

Division of License Renewal
Office of Nuclear Reactor Regulation
Mailstop O-11F1

Also, I am attaching a 8/16/07 letter sent from the NRC to NMFS, requesting information on Federally listed, proposed, and candidate species and critical habitat that may be in the vicinity of the Indian Point site. Can you confirm for me that your letter of 10/4/07 was meant to respond to that NRC request (in addition to providing scoping comments)?

Thanks.
