Dear Mr. Kingsley:

SUBJECT: WATTS BAR NUCLEAR STATION, UNITS 1 AND 2 - RESPONSE TO GENERIC LETTER  
(GL) 89-13, SERVICE WATER SYSTEM PROBLEMS AFFECTING SAFETY-RELATED  
EQUIPMENT (TAC NO. 74082 AND 74083)

By letter dated January 26, 1990, you submitted the first of two required responses to the subject generic letter. Noting that you have committed to each of the five recommended actions of GL 89-13, or to an equally effective alternative course of action for one or more of them, we accept your response as fulfilling this requirement of the generic letter.

We remind you that if you choose a course of action different from the recommended actions of the generic letter, you should document and retain in appropriate plant records a justification that the heat removal requirements of the Service Water System are satisfied by use of the alternative course of action.

We look forward to receiving the second (i.e., confirmation of action completion) of the two required responses to GL 89-13.

Sincerely,

Original signed by

Peter S. Tam, Senior Project Manager  
Project Directorate II-4
